

Boulogne, November 27 2008

PRESS RELEASE

The Colas Group will be at the Pollutec Exhibit 2008

Lyon Eurexpo - Hall 6 – Booth AY 188

The Colas Group will showcase its environmental skills and know-how at the Pollutec Exhibit 2008 at the Lyon Eurexpo Exhibit Hall from December 2 to 5, 2008. A special highlight will be placed on products designed to respond to the Energy Challenge.

The Group, backed by its Road companies along with its signaling, waterproofing and pollution clean-up specialists, will highlight its most innovative techniques and products in the following fields:

- Reducing energy consumption and greenhouse gas emissions (3E asphalt mixes, plant-based Vegecol binder, Vegeflux flux, Ecologiciel software, Ostrea and Typhon water-borne paints, etc.)
- Recycling materials (asphalt mix, mastic asphalt, concrete, earth, slag, foundry sand, etc.)
- Trenchless pipes (Eco-Cana software),
- Fighting traffic noise (noise-reducing mix, including Nanosoft).

The Group will also present photovoltaic roofing (Surfa[®]5 Solar), green roofing (Tecflor[®]/Ecoflor[®]), Coletanche[®] watertight membranes, road paint application machines, and pollution clean-up expertise (Pollution Service).

The Colas Group (www.colas.com)

The Colas Group is a leader in the construction and maintenance of infrastructure for transport, urban development and recreational facilities. With more than 66,700 employees throughout 1,400 profit centers in 40 countries on five continents, the Group carries out nearly 115,000 projects each year, backed by a tight international network of quarries, emulsion plants and asphalt plants.

In 2007, Colas posted 11.7 billion euros of consolidated revenue (40% outside of France). The Group share of net profit amounted to 474 million euros.
