COLAS RAIL WINS ITS FIRST CONTRACT IN SINGAPORE

On June 5, 2020, Colas Rail, the Colas Group subsidiary specialized in Railways, signed a contract with Singapore Land Transport Authority (LTA) to replace the power supply assets for the Bukit-Panjang LRT. This contract is the first ever secured by Colas Rail in Singapore.

Colas Rail will perform the design, supply, installation, testing and commissioning of the Power Supply distribution of the Bukit-Panjang LRT Line.

The contract amounts to 63 million Singapore dollars (around €41 million).

This first contract in Singapore bears further witness to Colas Rail's expertise in the construction and maintenance of metro infrastructure, and strengthens its foothold in Asia.

“We would like to thank the Singapore Land Transport Authority, LTA, for their confidence in Colas Rail’s expertise and know-how. As a global player in rail transport infrastructure, we are committed to making a contribution to a more environmentally sustainable rail transport system”, explains Mr. Hervé Le Joliff, CEO of Colas Rail.

Colas (www.colas.com)

Colas, a subsidiary of the Bouygues Group, is a world leader whose mission is to promote transport infrastructure solutions for sustainable mobility. With 57,000 employees in more than 50 countries on five continents, the Group performs some 70,000 road construction and maintenance projects each year via 800 construction business units and 3,000 material production units.

In 2019, consolidated revenue at Colas totaled €13.7 billion (52% outside of France). Net profit attributable to the Group amounted to €261 million.
